GAMERS SENTIMENT

"Video games are fun because they transport us to new realities and satisfy our needs for achievement and recognition."

(Source: Idtech)

MARKET SIZE

The market share of the gaming businesses and GameFi applications has been **growing year on year**. With better technology being developed everyday and new players joining in a constant manner, proving to be a full year trend, instead of seasonal as in the past. This is the "perfect storm" to **increase adoption rates and engagement** within users.

Some relevant statistics:

- There are more than **2.7 billion gamers worldwide**
- The global gaming market could be worth **\$200 billion by the end of 2023.**
- The total market cap of **NFTs** ecosystems is over **\$23 billion.**

Looking at specific platforms:

- **Twitch** generated 1460 BILLION of minutes watched in 2021.
- **OpenSea** surpassed \$14 billion of transaction volume in 2021.
- **Axie Infinity** surpassed 2.000.000 daily active players.

(Source: New Zoo)

5 COMMON COMPLAINTS FROM GAMERS

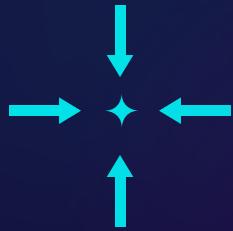

Cost of games
cost of subscriptions

Devices / hardware
updates

Centralization

Lack of ownership

Lack of native marketplaces
sustains secondary markets aka “black market”

THE FUTURE IS TODAY

WHAT IS A METAVERSE?

The metaverse as a term was coined in Neal Stephenson's 1992 science fiction novel Snow Crash, where humans, as avatars, interact with each other.

WHAT IS A PLAY TO EARN?

With blockchain technologies and **GameFi** applications (tokens, NFTs, DeFi) it's possible to achieve ecosystems where players have an opportunity to monetize their time.

COSMIC EXODUS

An immersive strategy GameFi experience focused on NFTs.

RPG GAME MODE "STAGE 0"

Prepare your base to suit your needs and your preferred approach. Always think a step ahead if you want to prevail.

Explore, collect, build..
Craft, upgrade, and a lot of practice!

PRODUCT DEMO - TEASER

Do you have what it takes to withstand?

TOKENOMICS

Ticker: \$ticker

Total Supply: 100,000,000

Cosmic Exodus ecosystem tokens were **created** with the sole purpose to **unlock the full extent** of the existing **content gameplay** (i.e. Heroes, Companions), as transactions of value between player to player (i.e. swap resources, items) or as means necessary **to progress the game content** (i.e. open loot box, upgrade assets). They can be obtained either by **regular DeFi** mechanisms or by playing and **reaching certain achievements in the game**.

USE CASES

DeFi and Yield farm applications

GameFi and NFTs activities

Governance - DAO voting power

Ecosystem fees discount

EVERYWHERE TEAM

20+ members + Advisors

Everywhere Team has been developing and innovating within the cryptocurrencies and blockchain world since early 2021. We are a passionate team, with highly skilled individuals that saw the potential and added value of being early birds in this massive game changer.

This is more than a 9 to 5 job for us.. We really care about what we do and put a lot of time into making sure everything we touch shines. This is what puts the food on the table, pays our rents, makes us happy and excited to wake up everyday!

With all the experience and skills combined, we intend to achieve the market frontier in developments & innovations, dedicating ourselves to achieve progress in a constant manner, delivering high quality content on a fast pacing.

TOM - FOUNDER

Having a deep passion for tech, gaming, coaching and combined with my high curiosity, commitment, and high pace it led me and my attention straight into blockchain and cryptocurrencies. A place where I saw the potential to combine everything I've always been interested and engaging. Life has made me a fighter for my goals, relentlessly pushing and building for a better tomorrow. With the vision of changing lives (one by one), through progress and accomplishments, making this world a better place.

EXPERIENCE HISTORY

- Managing small scale businesses since 2015
- National entrepreneur award - *Carbon farming + Permaculture*
- CEO experience since 2018
- Full time crypto since October 2020
- Community & HR manager of autofarm.network - *early 2021*
- PM for start up projects around BSC - *algo stablecoins, crypto mining, DeFi dApps*

DISCLAIMER

There are general risks associated in cryptocurrency assets and DeFi ecosystems, such as pump and dumps, errors in the smart contracts or dApp's and malicious attacks by bad actors in the space, leading to the loss or inaccessibility of funds for the investors.

The team will never ask you to:

- Transfer any funds for any reason whatsoever.**
- Input any private key or see phrase at any point.**

Scammers and impersonators will always find a loophole and a perfect timing to strike, so the best we can do is to educate as much as possible our community for these bad situations, and how to proceed upon them.

Users should always DYOR and never invest more than they are willing to lose. The contents of this document should not be considered as financial advice, but as educational purposes only.

Cosmic Exodus ecosystem tokens were created with the sole purpose to unlock the full extent of the existing content gameplay (i.e. Heroes and Companions), as transactions of value between player to player (i.e. swap resources, items) or as means necessary to progress the game content (i.e. open loot box, upgrade NFTs).

The information publicly displayed by any team members and associates can be subject to change or deleted without any prior notice or warning.

TECH STACK

Why AVAX ?

- ✓ Scalability, Latency
- ✓ Decentralisation
- ✓ Shared Security
- ✓ Current Adoption
- ✓ Interoperability
- ✓ Energy Efficiency

Why Moralis ?

- ✓ Fast way to build and deploy dApps
- ✓ Cross-chain adoption
- ✓ Easy to build, maintain and improve
- ✓ Scaling of development & operations
- ✓ Documentation

Why Unity ?

- ✓ Versatility
- ✓ Community
- ✓ Scripting Options
- ✓ Cross-Platform
- ✓ Modular Editor
- ✓ Unity Services

PARTNERS AND COLLABORATIONS

We are looking for long term partnerships with pioneers in the space, which represent the values and use cases to the cryptocurrency community that are so much needed.

Projects which bring more education and mainstream user adoption will always be supported by us, including possible endorsing, features and cross applications, designed to innovate and sustain real growth and added value for all participants.

We truly believe in building for the future, adapting and overcoming obstacles by having powerful synergies and network effects within the developers community base.

Enough of tribalism, let's unite instead!
